<sup>1</sup> Table data is correct to the best of Honeywell's knowledge as of this publication's date. However, some appliances may have igniter applications that are beyond the capabilities of this kit.  
<sup>2</sup> For igniters that require bracket A, use the template (Fig. 2 on page 3) to determine the tab to be removed.  
<sup>3</sup> For Carrier sealed combustion furnaces, you must use bracket E and retain the existing orange gasket for use with bracket E.
