

# DS05/DS06 DialSet® Pressure Regulating Valve

## *Control Water Pressure Without A Gauge.*

With the Honeywell DialSet® Pressure Regulating Valve, you're not under pressure to use a pressure gauge for every setting. The built-in adjustment dial eliminates the need for a gauge when adjusting the static pressure setting. The influence of German engineering and reliability helps increase your profits through fewer callbacks, plus its flexibility to work in a variety of applications means you can reduce your inventory.

# DS05/DS06 Series DialSet<sup>®</sup> Pressure Regulating Valve

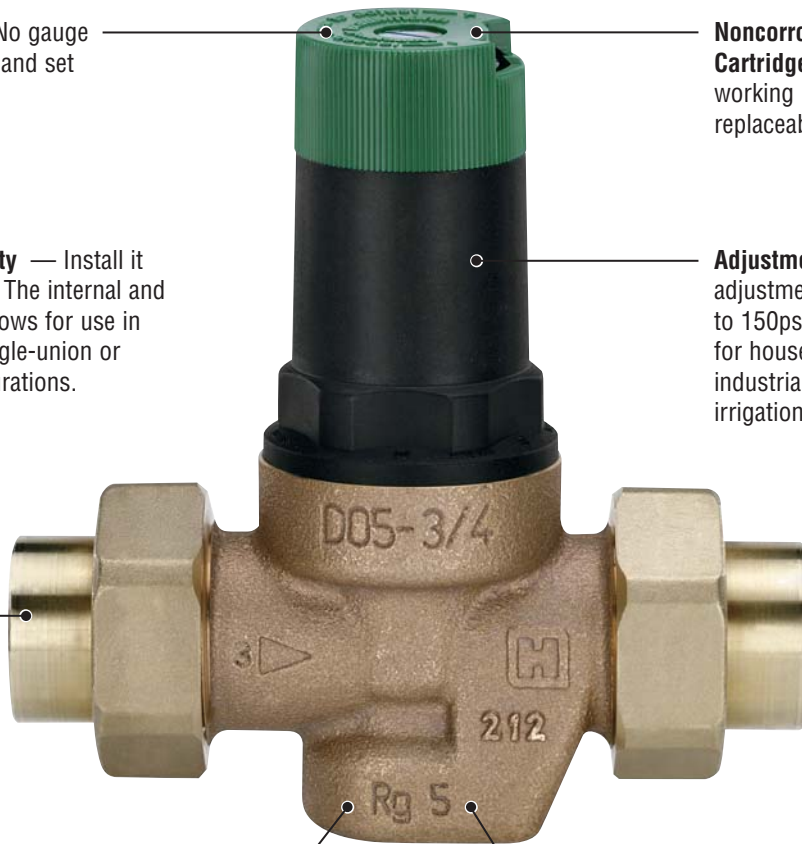

*Control Water Pressure Without A Gauge.*

**Built-In Dial-Set** — No gauge is needed to install it and set the static pressure.

**Noncorroding Unitized Cartridge** — Contains all working parts and is easily replaceable.

**Application Versatility** — Install it just about anywhere. The internal and external threading allows for use in thread-by-thread, single-union or double-union configurations.

**Adjustment Range** — Outlet adjustment range of 15psi to 150psi makes it suitable for household, commercial, industrial and turf-and-irrigation applications.

**Reliable** — It's from Honeywell.

**Approvals- ASSE 1003, IAPMO, CSA**

**Honeywell**
