

# Customizing Prestige™ Comfort Systems **Honeywell**

Honeywell Prestige thermostats can be fully customized to display a dealer's contact information and logo on the screen – making it easy for homeowners to contact them for post-sale support and service. And because Prestige thermostats have a USB port, a dealer's information and logo can be easily uploaded to the thermostat with a USB device.

# Customizing Prestige Comfort Systems

To format a logo for uploading to Prestige, go to <http://customer.honeywell.com/prestige> and follow the step-by-step instructions below.

## Step 1:

Browse and upload your company logo (supported file types are: .bmp, .gif, .jpg, .png) and enter your company information as you would like it to appear.

## Step 2:

Review the output images as they will display on the thermostat. Note that there will be separate images for Prestige HD and Prestige SD. Use the back button to make any changes. If no changes are needed, press the “next” button.

## Automation and Control Solutions

In the U.S.:

Honeywell

1985 Douglas Drive North

Golden Valley, MN 55422-3992

In Canada:

Honeywell Limited

35 Dynamic Drive

Toronto, Ontario M1V 4Z9

## Step 3:

Connect a USB device to your computer. Download the file(s) to the USB by clicking on each link.

When the file download box appears, press “Save”.

This will open a “Save As” screen. On this screen, save the file by selecting “My Computer” and then the USB device. Do not put files in a folder on the USB device.

The files can also be sent as attachments via email and saved to a USB stick at a later time.

## Step 4:

Put USB device in Prestige and follow the on-screen instructions for uploading.
